

Mobile storage solution for TV station

TV Tower, Turkmenistan

Following a successful inaugural Mobile Storage installation in Turkmenistan in 2010, Fortisco and our partners Office Storage Solutions were chosen to manufacture and install a very large Mobile Storage installation for the imposing new TV Tower project in Ashgabat, Turkmenistan.

Custom made storage solutions...

The 3rd Floor of this impressive building is the location for The mobile storage system was installed on the third floor of this impressive building. Specifically designed for the storage of Tapes & Discs, the shelving system provides over 1,100 storage bays that provide 7,500 linear meters of filing capacity!

All of the system components were transported via road directly to the site. Trained installation supervisors were flown to the site to fully oversee the installation project, which was constructed by a Turkish workforce. The entire project took just 5 weeks to complete!

**First impressions are so important
when walking into a company**
